RAMIR B. UYTICO, PhD., CESO III

Regional Director

Department of Education

Negros Island Region

Dear Dr. Uytico,

Greetings of integrity, excellence, and service!

The Philippine Science High School (PSHS) System, as the country's premier science high school, is dedicated to nurturing future Filipino leaders in Science, Technology, Engineering, and Mathematics (STEM). We are delighted to announce that a new *PSHS Campus is set to rise in the Negros Island Region*, expanding our reach and providing more opportunities for academically gifted students in the region.

As part of our early promotional and awareness campaign for the new campus, we are launching a "*Tulong Dunong and PSHS NIR Campaign*" activities. This program aims to inspire and engage young learners and elementary educators in Science, Technology, Engineering, and Mathematics (STEM). We believe your schools' top performing students and teachers are the perfect candidates for this enriching experience.

We are formally requesting your endorsement, support, and partnership with us for this event. The following are the needed preparations;

- (1) Attendance of your DepEd interested applicants on our set date of campaign this October 10, 2026 (morning).**
- (2) Disseminate information to all DepEd schools about the PSHS and its application during our scheduled date of campaign.**

The activities include:

- **STEM Enrichment Activities** for elementary students, designed to experience how the National Competitive Examination is conducted.
- **Faculty Enrichment Talks** for teacher-chaperones of the learners, providing new insights and pedagogical approaches.
- **A PSHS Promotional Video and Presentations** to provide information about the PSHS system, the admission process, and the benefits of a PSHS education.

We target to reach more numbers of participants to offer equitable opportunities for the PSHS scholarship and education. Here is the registration link for interested schools: <https://forms.gle/nkssMYLfDzaAuDoa7>

Your support in this initiative is invaluable as we work together to identify and cultivate the next

generation of Filipino scientists.

Thank you so much for your time and consideration. We look forward to the possibility of partnering with you.

Sincerely,

Dr. CARLITO CERBO Jr.
