SUBJECT : **SURVEY ON ALTERNATIVE DELIVERY MODES (ADM)s TO  
INFORM POLICY ON LEARNING CONTINUITY IN  
EMERGENCIES**

DATE : February 18, 2026

The Learning Systems Strand, through the Bureau of Learning Delivery (BLD), is set to release the **Policy Guidelines on Learning Continuity in Emergencies**. The policy focuses on school-based planning, decision-making, and evaluation on the effective delivery of teaching and learning even in times of emergencies or crises.

To ensure that the forthcoming policy communications and roll out strategies are relevant and responsive to the realities on the ground, we are seeking additional insights and expertise of those with direct experience in the implementation of alternative delivery modes (ADM)s as a response to in-person class disruptions.

In this regard, BLD has engaged EdTech Hub to gain a deeper appreciation of the responses and lived experiences of the Department of Education (DepEd) implementers. Through this partnership, we will be able to see more clearly how DepEd is responding to climate-related and other emergencies.

In this regard, this Office requests the **participation of ADM Focals and teachers in answering the following surveys:**
