Q	81	12
R	93	3
S	82	11
T	77	14
U	90	6
V	72	15

- c. SDOs that do not have any learner participant in a particular event will be assigned the lowest rank for that event. If there are multiple SDOs without participants, the lowest rank will be averaged among them to determine their final rank.

Example:

Participant	Rank
A	21
B	22
D	23
G	24
Q	25

There are **5 SDOs without participants**, all initially ranked 25.

Their **average rank** = $(21 + 22 + 23 + 24 + 25) \div 5 = 23$.

Note: This ensures that SDOs without participants are fairly ranked at the bottom without affecting the ranking of SDOs that have participants.

- d. All ranks given by the panel of experts shall be added, and the entry with the lowest total rank will be declared Rank 1, followed by the next lowest as Rank 2, and so on.

Sample Computation:

There are three (3) experts and four (4) learner-participants.

Each expert ranks the learner-participants from 1 (best) to 4 (lowest).

Step 1: Experts' Individual Ranking

Participant	Expert 1	Expert 2	Expert 3
A	1	2	1
B	2	1	3
C	3	4	2
D	4	3	4

Step 2: Add All Ranks (Total Rank Score)

Contestant A: $1 + 2 + 1 = 4$

Contestant B: $2 + 1 + 3 = 6$

Contestant C: $3 + 4 + 2 = 9$

Contestant D: $4 + 3 + 4 = 11$

Step 3: Determine Final Ranking

The lowest total rank = Rank 1

Participant	Composite Rank	Final Rank
A	4	Rank 1
B	6	Rank 2
C	9	Rank 3
D	11	Rank 4

Therefore:

- Contestant A has the lowest total (4) → Rank 1
- Contestant B next (6) → Rank 2
- Contestant C (9) → Rank 3
- Contestant D (11) → Rank 4

Scoring Rubrics for BakeCares

Criteria	Weight	Excellent (5)	Highly Proficient (4)	Proficient (3)	Developing (2)	Beginning (1)
Process on Product Development	20%	Exceptional understanding; systematic steps; mastery of techniques; innovative. LWDs exhibit total mastery of techniques through the independent use of assistive tools or modified strategies.	Strong understanding; minor deviations; good technique. LWDs exhibit good technique by consistently utilizing assistive tools or modified strategies with minimal supervision.	Adequate understanding; some confusion; timing issues. LWDs successfully executes cake making steps but shows minor inconsistency during transitions. While proficient in using adaptive tools, the learner still benefits from periodic cues and visual schedules to ensure a logical workflow and prevent sequencing errors.	Limited understanding; misses steps; poor technique. LWDs demonstrate an emerging understanding of baking sequences, though steps are occasionally omitted or performed out of order. Technical execution, such as icing making and ingredient measurement, remains inconsistent. At this stage, the learner requires continuous supervision and a high level of scaffolding	Minimal understanding; fails steps; lacks sequencing. LWDs demonstrate a fragmented understanding of procedural sequences, often requiring a reset of the task due to omitted steps. Engagement with ingredients is characterized by a high level of dependency, requiring continuous, full physical assistance (hand-over-hand) to initiate and complete basic motor actions.

Proper Use of Tools & Equipment	15%	Expert knowledge; safe, efficient handling; proper maintenance. LWDs exhibit total independence in setting up, utilizing, and performing basic maintenance—such as the deep cleaning of mixer attachments or the recalibration of adaptive scales.	Good knowledge; minor hesitation. LWDs exhibit a high degree of independence in utilizing tools, though they may occasionally require a brief verbal or visual reminder regarding specialized storage or advanced cleaning for complex machinery.	Basic knowledge; occasional reminders. LWDs exhibit a developing ability to handle tools but may show inconsistency in post-use cleaning or proper storage.	Limited knowledge; frequent errors; safety concerns. LWDs at this stage require constant, close supervision and repeated physical or verbal prompting to use assistive devices. The learner is not yet able to maintain the workstation independently, often requiring assistance.	Minimal knowledge; unsafe handling. LWDs at this stage require full, continuous "hand-over-hand" physical support to hold or touch ingredients and tools. There is a lack of awareness regarding tool function and safety protocols.

- **The total cumulative number of points shall always be 100 points.**
- The points per station shall be determined by the organizer based on the nature of the task, provided that the total points and the points for any station do not exceed the maximum points allocated for its respective category.
- If there is only one (1) station in a category, the points assigned to that station may exceed the usual maximum score allocation per station but shall not exceed the maximum points allotted for that category.

For stations that require a direct answer:

- Teams with correct answers shall receive full points, while teams with incorrect or unfinished tasks shall receive zero points.
- If the challenge is a written objective type, the number of points shall be based on the number of correct answers obtained by the team.
- The total time to complete the challenges shall be computed, but will not affect the score of each team for each station's task.
- In the event of a tie, the panel of experts shall determine the winner based on the total completion time. The team that finishes in the shortest time shall be declared the winner.
- In the event of a tie in both score and time, the judges shall administer a **do-or-die question** to determine the winner.

For station/s with written and oral arguments, refer to the criteria below:

Written Proposal
