**SUBJECT :**   
**SCHOOL BASED MONITORING AND EVALUATION (SBM&E) ON THE IMPLEMENTATION OF THE GENDER RESPONSIVE BASIC EDUCATION POLICY (DO 32, S. 2017)**

**DATE :** June 1, 2026

DepEd Order No. 32 s. of 2017, or the Gender-Responsive Basic Education Policy was issued by the Department of Education to fulfill its Gender and Development (GAD) mandate as stipulated in the 1987 Philippine Constitution, the Magna Carta of Women (RA 9710) and the international commitments such as the Convention on the Rights of the Child. The Policy addresses enduring gender issues, including the underperformance of boys in completion and survival rate, the marginalization of Indigenous Peoples, and the persistence of gender stereotypes in learning materials.

It further responds to reports showing a high prevalence of violence and sexual harassment against children particularly affecting girls and LGBTQIA+ within the school system. By integrating principles of gender equality, equity, and non-discrimination, the policy aims to holistically develop learners within a learner-friendly, safe and nurturing environment. Ultimately, it seeks to transform gender relations through gender-mainstreaming in curricula and governance while providing affirmative action to reduce educational disparities among vulnerable groups.

However, since the establishment of this policy in 2017, or for almost 9 years to date, no systematic School-Based Monitoring and Evaluation (SBM&E) has been formally conducted to track its progress at the school level, as reflected in the roadmap below.

It is worth emphasizing that DO 32 s. of 2017 mandates the Monitoring and Evaluation shall be conducted through periodic reviews and stakeholders' consultations to enhance the effectiveness of the policy provision. Furthermore, the M&E schedule specifically mandates the conduct of both a midterm review and an end-of-term evaluation to systematically track progress and ensure the sustainability of gender-mainstreaming results

Hence, in line with the recently adopted Basic Education Monitoring and Evaluation Framework (BEMEF) under DepEd Order No. 29, s. 2022, it is now imperative to initiate this school-based monitoring and evaluation to measure the effectiveness of the current policy. The data generated from this process will serve as the primary evidence as a basis for possible enhancements to the policy, which will ensure that school environments remain safe, nurturing, and responsive to both enduring and emerging gender-related issues.

To operationalize this initiative, **all concerned personnel and selected schools are hereby directed to actively participate in the monitoring and evaluation process**, which shall include the following activities:

1. Classroom observation using gender-responsive indicators (*see ANNEX D*).
2. Review of learning plans, instructional materials, and assessment tools for gender-fair language and inclusivity (*see ANNEX E*).
3. Assessment of Activity Matrix, Program Design of LAC Session, In-Service Training and other related PPAs (*see ANNEX F*).

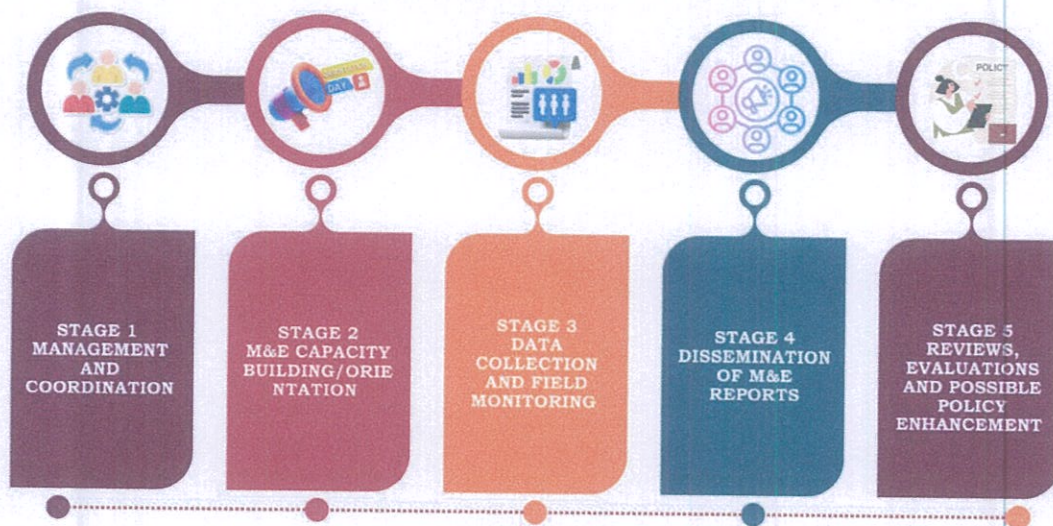

4. Inspection of school facilities (e.g., breastfeeding stations, VAW desks, child-minding centers/stations, toilets, clinics, guidance office, signage, and learning spaces) for gender sensitivity, safety, and accessibility **(see ANNEX G)**.
5. Evaluation of CPC and anti-bullying case records to ensure gender-based incidents are properly reported, addressed, and documented **(see ANNEX H)**.
6. Analysis of school plans such as School Improvement Plan (SIP), Annual Implementation Plan (AIP), Work and Financial Plan (WFP), Office Performance Commitment and Review Form (OPCRF) and Individual Performance Commitment and Review Form (IPCRF) alignment, GAD Plans and Budgets (GPBs), and GAD Accomplishment Report (GARs) **(see ANNEX I)**.
7. Conduct of Focus Group Discussions (FGDs) and feedback gathering from select learners, parents, and community stakeholders **(see ANNEX J)**.

To facilitate the effective execution of this activity, the Monitoring Team shall strictly adhere to the attached Monitoring Tools **(see ANNEX A to J)**, guided by the principles of inclusivity, respect for diversity, and non-discrimination. All monitoring results shall be consolidated and interpreted after the National Gender and Development Focal Point System (GFPS) Secretariat has successfully completed the nationwide monitoring and evaluation activities. The consolidated data shall serve as one of the bases for refining GAD Programs, Projects and Activities (PPAs), strengthening gender-responsive initiatives, ensuring sustained, compliance and possible policy enhancements of DepEd Order No. 32 s. 2017.

### I. STAGES OF SCHOOL BASED MONITORING & EVALUATION

The school-based monitoring and evaluation (M&E) process are structured into five key stages. These stages are designed to be led by the National GFPS Secretariat when monitoring selected schools nationwide.

<b>Small</b>		<b>**Hardship Post**</b>	The selection criteria for the SBM&E prioritize schools with IP, Muslim, and PWD learners to directly address the enrollment gaps and discrimination faced by these marginalized groups, ensuring that basic education remains both gender and culture sensitive.  By focusing on hardship posts and conflict-affected areas, the monitoring team can evaluate child protection protocols in environments where learners, especially girls and LGBTQIA+ youth, are at a higher risk of gender-related violence and bullying. The inclusion of various school sizes and multigrade settings facilitates an intersectional analysis of how different institutional capacities and peer dynamics impact the Department's goal of providing a safe and nurturing learning environment for all.  Finally, this diverse selection ensures the gathering of essential sex-disaggregated data across various contexts, providing the primary evidence base needed for the periodic review and continuous enhancement of the GRBE policy.	2

## School Based Monitoring and Evaluation on the Implementation of the Gender Responsive Basic Education Policy (DO 32 s. 2017)

**Figure 1.** Rationale for the Criteria for Selecting Schools for the School-Based Monitoring and Evaluation on the Implementation of Gender Responsive Basic Education Policy

Figure 1 presents the rationale behind the criteria used in selecting schools for the School-Based Monitoring and Evaluation on the implementation of DepEd Order No. 32, s. 2017. These criteria were strategically formulated to ensure that the monitoring process captures a comprehensive and intersectional perspective of gender-related issues across diverse educational contexts.

In view of the foregoing, the following interpretation provides the rationale for each criterion in accordance with the established policy standards, *to wit*:

### 1. School Size (Small to Very Large)

Varying school sizes allows the Department to assess different levels of institutional capacity. Large and very large schools, characterized by high learner density, are often prioritized because they face a higher prevalence of violence against children and sexual harassment. Monitoring smaller schools helps determine if they have the necessary support to operationalize the Gender and Development Focal Point System (GFPS) and provide mandatory facilities like breastfeeding stations, VAW desks, child-minding centers, among others.

### 2. Inclusion of Marginalized Groups (IP, Muslim, and PWD Learners)

These learners are specifically identified as groups that fall behind in enrollment data and face unique forms of discrimination. By selecting schools with these demographics, the monitoring team can evaluate the "intersectionality" of gender with ethnicity and disability, ensuring the curriculum remains culture-sensitive and that affirmative actions are effectively reducing gender gaps. For PWD learners, it specifically ensures compliance with standards for accessible facilities.

3. Geographic and Risk-Prone Areas (Hardship, Conflict-Affected/Vulnerable Affected Areas)

Learners in these areas, particularly girls and LGBT youth, are at a significantly higher risk of gender-related violence, abuse, and exploitation. Focusing on these sites allows for a rigorous evaluation of Child Protection Committee (CPC) protocols and the enforcement of the zero-tolerance policy against bullying and harassment in high-vulnerability environments.

4. Multi-Grade Schools and or Classes

Multi-grade settings involve complex peer dynamics across different age groups sharing a single learning space. This criterion is used to assess the school's ability to maintain a safe and inclusive education environment while managing the increased risk of peer-committed sexual violence and bullying.

5. Data-Driven Policy Enhancement

Selecting 10 diverse schools per region ensures the collection of sex-disaggregated data, which the policy deems "non-negotiable" for informed decision-making. This data serves as the primary evidence base for periodic reviews and possible enhancements to the policy, ensuring it stays responsive to both enduring and emerging gender patterns, such as the identified underperformance of boys in key indicators.

Key Areas & Indicators	Score	Rationale
<b>A. Instructional Materials and Resources</b>		
1. The teacher uses learning resources free from gender biases and stereotypes (e.g., both sexes shown in diverse career roles)		Ensures old materials are replaced or supplemented with gender-fair content
2. Instructional materials use gender-fair language and positive images of both men and women		Materials must also be culture-sensitive to address specific marginalization
3. Visual aids and signage in the classroom are inclusive and accessible to Persons with Disabilities (PWDs)		Monitors the intersectionality of gender and disability to prevent compound discrimination

<b>B. Teaching-Learning Process and Pedagogy</b>
